Order from OTS \$0.50</p> <p>Trans. of Akademiya Nauk SSSR. Doklady, 1959, v. 128, no. 5, p. 876-879.</p> <p>The fundamental solution is presented of the Fokker- Planck-Kolmogorov equation for the case in which F is linear with respect to the highest derivative, using a functional integral related to the Wiener measure integral. If the original system is linear, the func- tional integral can be calculated in final form. An approximation becomes an accurate solution of the problem.</p> <p>(Mathematics, TT, v. 5, no. 11)</p>	<p>61-11168</p> <p>1. Probability (Statistics)-- Theory 2. Integral equations--Theory 3.
